1) **WHEN HOURLY RATES WILL APPLY:** Rates in this Section apply only when:

- a) the distance from the point of origin to the final destination of a shipment is not more than 35 miles; **OR**
- b) both the point of origin and the final destination of a shipment are wholly within the area covered by the counties of Cook, DuPage, Kane, Kendall, Lake, McHenry, and Will.

NOTE 1: Rates named in this Section do not apply on shipments to or from storage for the account of those carriers who participate in Item 120.

NOTE 2: Rates in this Section apply only on shipments released at a value not exceeding 30 cents per pound per article. (See Item 6 for rates to apply on shipments released at a value exceeding 30 cents per pound per article.)

NOTE 3: Rates in this Section do NOT apply on packing and unpacking service performed by the carrier. For rates to apply See Item 45.

NOTE 4: When transporting shipments subject to hourly rates, Carrier will make the best practicable effort to determine the number of men and the size and number of motor vehicles appropriate to provide safe and timely transportation services under the particular circumstances of the requested move. If carrier does not make the best practicable effort, or upon determining appropriate men and equipment needs, deviates from its initial determination, the shipper shall not be charged for any excess in charges resulting therefrom unless the shipper is informed and agrees thereto. A notation shall be placed on the bill of lading indicating the number of men and motor vehicles initially estimated and the number actually furnished and used for the move.

NOTE 5: Hourly rated shipments shall, except as otherwise provided in this paragraph, be transported singly and not comingled with any other freight. Where hourly rated shipments are comingled, the burden shall be on the carrier to demonstrate that the freight charges for each shipment are not greater than the charges which would have applied if the shipment had been transported singly and not comingled.

Note 1: rates apply when circumstances in Note 2 do not exist.

Note 2: Rates apply only for a single shipper who tenders and pays for five (5) or more shipments during a service period, which is defined as twelve (12) consecutive months following carrier's receipt by registered mail or shipper's written agreement to terms of this Note. Agreement shall stipulate that:

a) Shipper agrees to pay all applicable charges for each shipment upon its completion.

b) At the end of the service period, carrier will provide shipper with complete listing of all shipments tendered during service period, along with a final statement of charges for each shipment. If at the end of the service period shipper has failed to tender the number of shipments according to the written agreement, shipper must pay corrected billing for all shipments that are calculated from applicable rates in Note 1, less the amount originally paid during the service period.

c) If the service period is interrupted due to strike, equipment breakdowns, fire, or natural disasters, the service period will be extended for a like period.

d) Carrier will maintain complete records of all shipments at carrier's principal office, which will be available for examination upon shipper's request.

Note 1: Rates apply when circumstances in Note 2 do not exist.

Note 2: Rates apply only for a single shipper who tenders and pays for five (5) or more shipments during a service period, which is defined as twelve (12) consecutive months following carrier's receipt by registered mail of shipper's written agreement to terms of this Note. **Agreement shall stipulate that:**

a) Shipper agrees to pay all applicable charges for each shipment upon completion.

b) At the end of the service period, carrier will provide shipper with complete listing of all shipments tendered during service period, along with a final statement of charges for each shipment. If at the end of the service period shipper has failed to tender the number of shipments according to the written agreement, shipper must pay corrected billing for all shipments as calculated from applicable rates detailed in Note 1, less the amount originally paid during the service period.

c) If the service period is interrupted due to strike, equipment breakdowns, fire, or natural disasters, the service period will be extended for a like period.

d) Carrier will maintain complete records of all shipments at carrier's principal office, which will be available for examination upon request.

Summer rates apply all days May 25-Sept 15
Winter rates apply all days Sept. 16-May 24

Note 1: rates apply when circumstances in Note 2 do not exist.

Note 2: Seasonal Rates do not apply. Rates apply only for a single shipper who tenders and pays for fifty (50) or more shipments during a service period, which is defined as twelve (12) consecutive months following carrier's receipt by registered mail or shipper's written agreement to terms of this Note. Agreement shall stipulate that:

a) Shipper agrees to pay all applicable charges for each shipment upon its completion.

b) At the end of the service period, carrier will provide shipper with complete listing of all shipments tendered during service period, along with a final statement of charges for each shipment. If at the end of the service period shipper has failed to tender the number of shipments according to the written agreement, shipper must pay corrected billing for all shipments that are calculated from applicable rates in Note 1, less the amount originally paid during the service period.

c) If the service period is interrupted due to strike, equipment breakdowns, fire, or natural disasters, the service period will be extended for a like period.

d) Carrier will maintain complete records of all shipments at carrier's principal office, which will be available for examination upon shipper's request.

Note 3: Line Haul Rates in Sections 2 and 3 include up to 60 used cartons.
